

# NAOS – Small Cap Opportunities Company Ltd

Ethical Survey, as voted by members of the Ethical Advisers Co-Op

Poor | Disappointing | Average | Appealing | Excellent

As voted by Ethical Adviser Co-op members. Find a specialised ethical adviser near you: [www.ethicaladviserscoop.org/find-an-adviser.html](http://www.ethicaladviserscoop.org/find-an-adviser.html)

## Fund Overview

This is an actively managed listed investment company (LIC) that holds a portfolio of small-cap (\$100million - \$1 billion) Australian industrial companies. NAOS employs an ESG screen across the portfolio along with both a negative and positive screen element.

## Ethical Concerns

### Investments

- ✘ Some investments in the Fund may be problematic for ethical investors, such as:
  - Mining services: Saunders Int (SND) – oil, gas, mining, infrastructure related customers
  - Support to defence sector: Broadcast Services (BSA), Saunders Int (SND)
  - Fodder & meat export industry exposure: Wingara AG Ltd (WNR) – provides supply chain/marketing services
  - Tourism related environmental impacts: Experience Co Ltd (EXP) – travel company providing rainforest and great barrier reef tours, which have *may* have potential links to environmental damage.
  - Potential exposure to logging: Big River Industries (BRI) – provides timber building and flooring products with a focus on energy efficient and sustainable features, though no attempt to address environmental concerns associated with wood-based building products.

### Other concerns

- ✘ NAOS does not publicly disclose its full list of holdings but is willing to provide the list upon request.
- ✘ NAOS does not provide shareholder voting history but due to micro-cap (industrial) nature of underlying investee companies, there are unlikely to be any significant shareholder resolutions.
- ✘ While NAOS seem committed to incorporating ESG into their investment process, there is only a relatively succinct explanation of this [process](#) provided on their website.
- ✘ Poor commitment to transparency as not a UNPRI signatory or RIAA certified.
- ✘ Potentially misleading by claiming to [support and implement](#) UNPRI, without being members.

## Good Points

- ✓ Fund excludes investment in tobacco, gambling, nuclear and uranium, controversial weapons, coal mining operations and oil and gas production.
- ✓ Fund employs a positive screen for involvement in ESG activities including biodiversity, combating climate change, reducing GHG emissions, promoting human rights and equality in the supply chain and board diversity.
- ✓ Above screening highlights a strong commitment to responsible investment process.
- ✓ NAOS only manages funds which take ESG into consideration.

## About the 'Ethical Survey'

---

### About the Ethical Advisers Co-Op

The Ethical Advisers Co-op is a group of 35 financial advisers who are passionate about ethics and finance. The Co-op was established as a not-for-profit over 10 years ago to enable likeminded financial advisers to work together to represent the voice of the consumer. We work to shift the super and investment industry into being more ethically aligned with their clients' objectives. The Co-op's nationwide membership of ethical financial advisers help over 3,300 Australians make financial decisions and invest in line with their ethical values.

### How the Leaf-System Works

The ethical rating is voted by Australian financial advisers who specialise in ethical investments (Co-op members). The advisers assess if fund ethics suit their average ethical client, and if it matches with the average client's expectations and objectives. The advisers consider how successful the fund is at; 1) removing industries and stocks harmful to the environment and society 2) including companies with environmental or social benefits, and 3) providing evidence of actions from the fund which benefit society and/or the environment. The quality of information the fund provides on its ethical policies, companies invested in, and proxy voting is important in assessing if a fund is as ethical as claimed. The final rating is an average of these votes.

Financial advisers are voluntarily participating to help ethical consumers gain a quick understanding of how the clients of a group of industry professionals view the ethics of each fund. The Co-op and the advisers do not receive any form of remuneration or reward for participating.

### Further Research

#### *Does your fund walk the talk?*

The Australasian Centre for Corporate Responsibility (ACCR) – a not-for-profit shareholder advocacy organisation – pushes for transparency around whether your super fund 'walks the talk' on issues such as climate and human rights. You can find details on your super fund [here](#).

#### *Is your fund investing in fossil fuels?*

Market Forces is a not-for-profit delivering transparency on fossil fuel lending, insuring and investing within super funds, banks and insurance companies. You can see how exposed your super fund, bank or insurance company is to the fossil fuel industry [here](#).

#### *If the fund is certified by the Responsible Investment Association Australasia (RIAA)*

You can find more ethical and investment information for certified funds [here](#).

#### *More information on this fund*
