## Fund Overview

This is a passively managed International Fixed Interest managed fund. Pendal employs a negative screening process, drawing on the experience and skills of the Regnan team (a fully owned subsidiary of Pendal), supported by MSCI Global Aggregate Sustainability Research.

Credit securities issued by companies with a 'material' business involvement in tobacco, alcohol, gaming, weapons or armaments, pornography, thermal coal and oil sands production are screened out.

## Ethical Concerns

### Investments

- ✘ Some investments in the Fund may be problematic for ethical investors, such as:
  - Fossil-fuel intensive industries: Pembina Pipeline, Southern Electric Power, SouthWestern Electric Power, Exxon Mobil, Northern States Power.
  - Other holdings with ethical concerns: Various international bank issued bonds, Unilever, Nestle, Coca-Cola, Apple, Electricite de France, Procter and Gamble, Cenovus Energy, Dominion Energy, Dow Chemicals, Devon Energy, Entergy, Baltimore Gas and Electric, Gilead, Alphabet, Glencore, GlaxoSmithKlein, Halliburton, Marathon Petroleum, Rio Tinto, Starbucks, Tyson Foods.

### Other concerns

- ✘ Full holdings are not published on Pendal's website, however a full list is located on the [RIAA website](#).
- ✘ The "revenue threshold" used by Pendal to drive exclusions, at 10%, is higher than some peers in this sector.
- ✘ Although Pendal are committed to the integration of ESG within their investment process, there is little evidence in their public on-line positioning.

## Good Points

- ✓ Fund screens for tobacco, alcohol, gaming, weapons or armaments, uranium, pornography, thermal coal and oil sands production.
- ✓ Provides a [Charter](#) detailing their responsible investment philosophy and approach.
- ✓ Commitment to transparency by being [UNPRI](#) signatory, the fund is also [RIAA Certified](#)
- ✓ Investments are mapped to the UN's SDGs, and impact reports produced to assess the portfolio's positive contribution to the environment and social equality.
- ✓ The Manager has articulated a commitment to the integration of ESG within their investment process, their ESG policy is freely available on the firm's website. The purchase of the Regnan business highlights this commitment to ESG integration.

## About the 'Ethical Survey'

### About the Ethical Advisers Co-Op

The Ethical Advisers Co-op is a group of 35 financial advisers who are passionate about ethics and finance. The Co-op was established as a not-for-profit over 10 years ago to enable likeminded financial advisers to work together to represent the voice of the consumer. We work to shift the super and investment industry into being more ethically aligned with their clients' objectives. The Co-op's nationwide membership of ethical financial advisers help over 3,300 Australians make financial decisions and invest in line with their ethical values.

### How the Leaf-System Works

The ethical rating is voted by Australian financial advisers who specialise in ethical investments (Co-op members). The advisers assess if fund ethics suit their average ethical client, and if it matches with the average client's expectations and objectives. The advisers consider how successful the fund is at; 1) removing industries and stocks harmful to the environment and society 2) including companies with environmental or social benefits, and 3) providing evidence of actions from the fund which benefit society and/or the environment. The quality of information the fund provides on its ethical policies, companies invested in, and proxy voting is important in assessing if a fund is as ethical as claimed. The final rating is an average of these votes.

Financial advisers are voluntarily participating to help ethical consumers gain a quick understanding of how the clients of a group of industry professionals view the ethics of each fund. The Co-op and the advisers do not receive any form of remuneration or reward for participating.
