This is an actively managed fund investing in Australian companies. It has negative and positive filters.

Ethical Concerns

Investments

- ✗ Some investments in the Fund can be problematic for ethical investors, such as:
 - Fossil Fuels (oil/gas): Oil Search Ltd, Woodside Petroleum.
 - Other holdings with ethical concerns: Wesfarmers, big four banks, Afterpay, Transurban Group.

Other concerns

- ✗ Oil Search are known [for fracking](#) gas. This may contravene the 'unconventional gas extraction' exclusion.
- ✗ Invests in companies named by [Market Forces](#) as undermining efforts to meet the Paris Agreement on Climate Change.

Good Points

- ✓ Fund excludes armaments, uranium, gambling, alcohol production, tobacco manufacturing, pornography, thermal coal mining and exports, unconventional oil and gas extraction.
- ✓ Fund excludes companies whose products, services or practices cause or perpetuate cause or perpetuate; injustice or suffering, infringe human rights, cause unacceptable damage to the natural environment, have unacceptable environmental management practices, support oppressive regimes, have unacceptable health and safety practices.
- ✓ Commitment to transparency by being [UNPRI](#) signatory and [RIAA](#) certified.
- ✓ Good transparency with [investment options](#) and [voting history](#) publicly available on their website.
- ✓ Voting history is ok. Voting appears considered and justifications are provided.
 - Abstained from QBE shareholder resolutions (Climate change related resolutions, 2018).
 - Against a shareholder resolution on AAPL for human rights, with justification.
 - Against multiple company resolutions due to remuneration thresholds and gender diversity issues.
- ✓ Positive screen tries to invest in companies that promote human welfare and preserve the environment, such as clean energy, recycling, employment, health care and community services.
- ✓ UCA only specialise in ethical investments.

About the 'Ethical Survey'

About the Ethical Advisers Co-Op

The Ethical Advisers Co-op is a group of 35 financial advisers who are passionate about ethics and finance. The Co-op was established as a not-for-profit over 10 years ago to enable likeminded financial advisers to work together to represent the voice of the consumer. We work to shift the super and investment industry into being more ethically aligned with their clients' objectives. The Co-op's nationwide membership of ethical financial advisers help over 3,300 Australians make financial decisions and invest in line with their ethical values.

How the Leaf-System Works

The ethical rating is voted by Australian financial advisers who specialise in ethical investments (Co-op members). The advisers assess if fund ethics suit their average ethical client, and if it matches with the average client's expectations and objectives. The advisers consider how successful the fund is at; 1) removing industries and stocks harmful to the environment and society 2) including companies with environmental or social benefits, and 3) providing evidence of actions from the fund which benefit society and/or the environment. The quality of information the fund provides on its ethical policies, companies invested in, and proxy voting is important in assessing if a fund is as ethical as claimed. The final rating is an average of these votes.

Financial advisers are voluntarily participating to help ethical consumers gain a quick understanding of how the clients of a group of industry professionals view the ethics of each fund. The Co-op and the advisers do not receive any form of remuneration or reward for participating.
